

Developing Services for BME

Presentation by Anita Puri

Background Information

Population Trends

The 2001 census information indicates that 6.3% of Middlesbrough population are from BME communities.

Over the next 15 years there will be a significant increase of the local population over 75 years.

20% of children with disabilities are from ethnic minority background.

Background Information

Various Religions in Middlesbrough

Christians 103610

Buddhist 166

Hindu 333

Jewish 58

Muslim 5689

Sikh 154

Others 24492

The majority of the children in Middlesbrough from BME communities are from Pakistani origin; this equates to 63% of the total ethnic population

My Role

Priorities for BME development work are highlighted in Learning Disabilities Ethnicity consultation and action plan.

The post was put in place in May 2005 using Learning Disabilities Development Fund Resource.
